The AHRI Certified® mark indicates Samsung's participation in the AHRI Certification program. For verification of individual certified products, go to www.ahridirectory.org.

Select models are ENERGY STAR® labeled. Proper sizing and installation of equipment is critical to achieve performance. Split system air conditioners and heat pumps (excluding ductless systems) must match with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

The SmartThings app is available for download on the Google™ Play store and App Store®. A network connection is required. Samsung application account is necessary.

Bixby voice recognizes English (U.S.), Mandarin Chinese and Korean. Not all accents, dialects and expressions are recognized. The list of features that can be controlled by voice command via Bixby will continue to expand. Mobile functionality compatible with Samsung Galaxy 8 series or higher with Bixby function. Samsung account login and data network (Wi-Fi or internet connection) required to fully operate Bixby features.

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

¹Models manufactured after 1/1/2015 qualify for the Enhanced 10 Year Warranty.

²Excludes 48K Btu/h model

Samsung HVAC maintains a policy of ongoing development, specifications are subject to change without notice.

WindFree™* 2.0, Quantum 2.0 and Max Heat® 2.0

WindFree™* 2.0

Quantum 2.0

Features:

Total Control

WindFree™* 2.0 and Quantum 2.0 units come with built-in Wi-Fi, allowing users to remotely regulate temperature, adjust settings, receive real-time updates about system performance and energy usage, as well as troubleshoot solutions when a repair is needed. Compatible with SmartThings app[†] and Bixby 2.0[^].

Control Features

- On/Off
- Fan Speed
- Temperature Setting
- Wind Direction
- WindFree™* Mode¹
- Schedule
- Good Sleep Mode
- Options:
 - 2-Step
 - Fast
 - Comfort
 - Quiet
 - Single User

SmartThings Features

Scenes – Control multiple devices with a single tap or voice command through the SmartThings app. A Scene can be used as a part of an Automation.

Automations – Control your devices without manual intervention. Automations can be set to run at certain times on certain days of the week or to trigger when another device reports a certain condition (such as detecting motion or a door or window opening).

Energy Monitoring – View daily, weekly, and monthly energy consumption for your A/C system (for reference use only and not revenue grade).

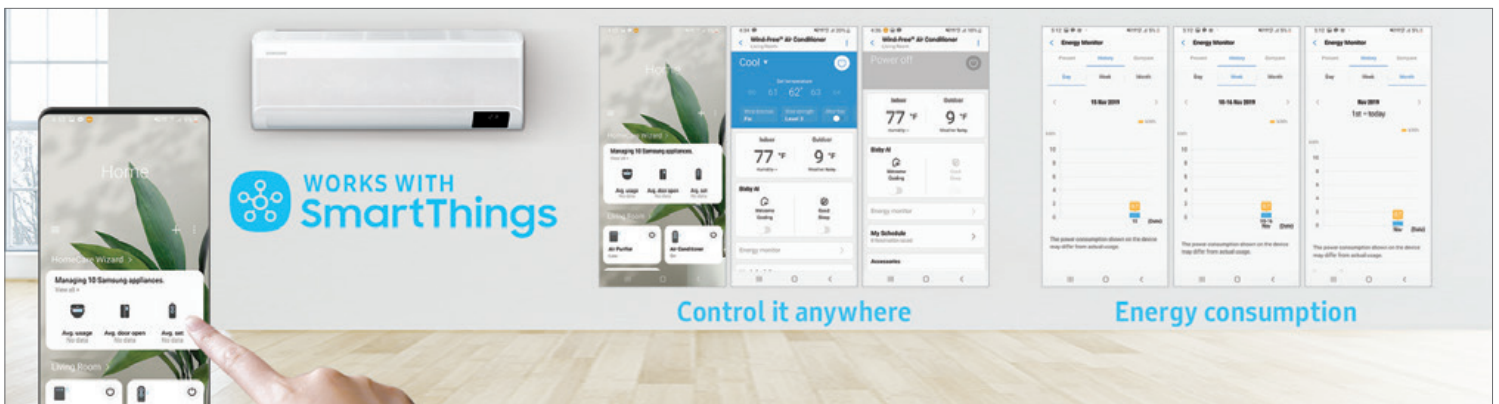

Geofencing – Detects when the smartphone you’re carrying comes in and out of the range you set up on the map, and then triggers the different actions you’ve set to happen (such as turning your A/C off while you’re away, or on when you arrive home).

Bixby

Bixby is Samsung’s scalable AI platform, built to support multiple devices in your life in a more conversational, more personal, and more useful way.

To learn more, visit Samsung.com/bixby

[†]Available for download on the Google™ Play store and App Store®. A network connection is required. Samsung application account is necessary.

[^]Bixby voice recognizes English (U.S.), Mandarin Chinese and Korean. Not all accents, dialects and expressions are recognized. The list of features that can be controlled by voice commands via Bixby will continue to expand. Mobile functionality compatible with Samsung Galaxy 8 series or higher with Bixby function. Samsung account login and data network (Wi-Fi or internet connection) required to fully operate Bixby features.

¹Applies to WindFree™ models only

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

WindFree™* 2.0, Quantum 2.0 and Max Heat® 2.0

Seamless Operation

AI Auto Mode¹ monitors indoor temperature, outdoor temperature, set temperature, and operating time to learn the patterns within your home and automatically adjust system operation to maximize comfort.

High Performance

The Digital Inverter compressor's variable speed control allows the compressor to operate at precisely the speed needed to maintain the set temperature without turning the system on and off.

Superior Indoor Unit Design

1. Reduced size making it less obtrusive in the space[^]
2. 3-sided coil design for more even temperature leaving the evaporator coil
3. Upward motion of the louver prevents cold drafts from affecting occupants

Improved Serviceability

The new indoor unit design incorporates more interlocking components in place of threaded fasteners to reduce the time and effort it takes to install and service a system.

Reusable Filter

The filter is located on the top of the unit, making it easy to remove, clean, and put back.

¹Enable AI Auto Mode using the SmartThings app. Available for download on the Google™ Play store and App Store®. A network connection is required. Samsung application account is necessary.
[^]Compared to previous triangle-design models

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

WindFree™* 2.0, Quantum 2.0 and Max Heat® 2.0

Reduced Power Consumption

Single user mode uses less compressor capacity to reduce power consumption when users are home alone.

Dual Set Point (DSP) Function

DSP function allows users to specify separate heating mode and cooling mode set temperatures (set points).

(enabled by default; requires MWR-WG00UN wired controller)

Simple Float Switch Connection

WindFree™* 2.0 and Quantum 2.0 units come with a factory-installed wire harness for simple connection to third party overflow detection devices for unit shutdown with a dedicated error code. This can also be used for simple unit ON/OFF using any dry connection.

Enhanced Triple Protector Plus

1 COMPRESSOR PROTECTION

Prevent damage from low voltage

2 CONTROLLER (PCB) PROTECTION

Constant voltage control prevents damage from high voltage

3 FIN PROTECTION

Made of corrosion-resistant material to protect the condenser from rusting. Corrosion-resistant was proven using the Salt Spray Test for 480 hours.

Normal Working Range: 187 – 265 VAC. The voltage value may vary because the voltage ripple value is different depending on the load and ambient conditions. Tested on the AR12TXEAAWKNEU model compared with the Samsung conventional model AS18FCMID.

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

WindFree™* 2.0

WindFree™* Cooling technology maintains the desired temperature and eliminates cold drafts by delivering air through micro holes on the unit's louver and fascia panel when the louver is closed, producing a dispersed and gentle flow of air defined as "still air."

The WindFree™* 2.0 unit also has a larger WindFree™* surface area for more precise temperature control compared to previous models.

- Available capacities: 9K, 12K, 18K, and 24K Btu/h
- SEER: Up to 24.5
- HSPF: Up to 12.5

Product Registration Required
Conditions Apply

Quantum 2.0

The new Quantum 2.0 mini split has been reimagined and redesigned to deliver exactly what homeowners want – greater efficiency and total control.

- Available capacities: 9K, 12K, 18K, and 24K Btu/h
- SEER: Up to 23.5
- HSPF: Up to 12.0

Product Registration Required
Conditions Apply

Max Heat® 2.0

Max Heat® 2.0 is compatible with the WindFree™* 2.0 indoor unit and has the ability to keep you comfortable in any climate.

Along with the ability to provide 100% heating performance at 5°F (-15°C) with high heating output at -13°F (-25°C), the Max Heat® 2.0 unit is equipped with an integral base pan heater to melt and drain away water from defrost cycles to avoid ice buildup.

- Available capacities: 9K, 12K, 18K, and 24K Btu/h
- SEER: Up to 24.5
- HSPF: Up to 12.5

^Bixby voice recognizes English (U.S.) Mandarin Chinese and Korean. Not all accents, dialects and expressions are recognized. The list of features that can be controlled by voice commands via Bixby will continue to expand. Mobile functionality compatible with Samsung Galaxy 8 series or higher with Bixby function. Samsung account login and data network (Wi-Fi or internet connection) required to fully operate Bixby features.

Max

The Max mini split system provides a solution for heating and cooling of a larger, high occupancy space.

- Available capacities: 36K Btu/h
- SEER: Up to 18.0
- HSPF: Up to 9.0

Features:

Reduce Power Consumption

Single user mode uses less compressor capacity to reduce power consumption when users are home alone.

Improved Filtration

The Full HD (High Density) filter offers improved filtration by removing small dust particles for clean and fresh air.

Product Registration Required
Conditions Apply

Free Joint Multi (FJM)

- Available capacities: 18K, 24K, 36K, and 48K Btu/h
- SEER up to 19.7
- HSPF up to 10.3
- Supports 2 to 5 indoor units

Free Joint Multi (FJM) Max Heat®

- Available capacities: 20K, 24K, 30K, and 36K Btu/h
- SEER up to 20.0
- HSPF up to 11.0
- Supports 2 to 4 indoor units
- 100% heating performance at 5°F (-15°C) with high heating output at -13°F (-25°C)
- Integral base pan heater as standard

Commander in chief

This versatile system is the best solution for residential and light commercial buildings requiring a flexible, efficient, and reliable air conditioning system.

Features:

- Simplified connection to central control with direct connection to R1/R2 at the outdoor unit.
- Option settings allow system configuration as cooling or heating, cooling only, or heating only.
- “Home run” piping to each indoor unit
- Compatible with NASA communication protocol controllers
- Twin BLDC compressor for high efficiency, low noise, and vibration.
- One button auto addressing for simple system setup when completing installation

Capacities shown in Btu/h

Indoor Units

WindFree™ Mini 4-Way Cassette

- Available capacities: 9K, 12K, and 18K Btu/h
- WindFree™ Cooling technology maintains the desired temperature and eliminates cold drafts by delivering air through micro holes on the unit's fascia panel when the louvers are closed, producing a dispersed and gentle flow of air defined as "still air."
- The panel is designed to fit in a standard 2x2 feet ceiling grid without interfering with adjacent ceiling tiles, lights, or sprinkler systems.
- The four louver blades can be individually set at the same or different angles within a 32-65° range.

Motion Detection Sensor (MDS) sold separately

Console

- Available capacities: 9K, 12K, 15K, and 18K Btu/h
- The console unit can be installed sitting on the floor or hanging low on a wall, making it a great option for replacing a radiator in order to provide both heating and cooling in almost any space.
- Delivers cool air from the upper outlet while in cooling mode and warm air from the upper and lower outlet^ while in heating mode, resulting in more coverage in less time.

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

^The lower outlet supports manual adjustment only.

Slim Duct

- Available capacities: 9K, 12K, and 18K Btu/h
- Single fan motor with three fan speeds and auto setting
- Integral condensate pump with float switch as standard
- 0.2" WC maximum static pressure

WindFree™* 2.0

- Available capacities: 7K, 9K, 12K, 15K, 18K, and 24K Btu/h
- 9K, 12K, 18K, and 24K Btu/h indoor units are compatible with RAC single zone outdoor units and the new FJM outdoor units. 7K and 15K Btu/h indoor units are compatible with FJM systems only.
- WindFree™* Cooling technology maintains the desired temperature and eliminates cold drafts by delivering air through micro holes on the unit's louver and fascia panel when the louver is closed, producing a dispersed and gentle flow of air defined as "still air."
- Wi-Fi enabled for control and monitoring via Samsung's SmartThings app†.
- Our new indoor unit design incorporates more interlocking components in place of threaded fasteners to reduce the time and effort it takes to install and service a system.

Quantum 2.0

- Available capacities: 7K, 9K, 12K, 15K, 18K, and 24K Btu/h
- 9K, 12K, 18K, and 24K Btu/h indoor units are compatible with RAC single zone outdoor units and the new FJM outdoor units. 7K and 15K Btu/h indoor units are compatible with FJM systems only.
- Wi-Fi enabled for control and monitoring via Samsung's SmartThings app†.
- Our new indoor unit design incorporates more interlocking components in place of threaded fasteners to reduce the time and effort it takes to install and service a system.

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

†Available for download on the Google™ Play store and App Store®. A network connection is required. Samsung application account is necessary.

SAMSUNG

†The AHRI Certified® mark indicates Samsung's participation in the AHRI Certification program. For verification of individual certified products, go to www.ahridirectory.org.
 ΔSelect models are ENERGY STAR® labeled. Proper sizing and installation of equipment is critical to achieve performance. Split system air conditioners and heat pumps (excluding ductless systems) must match with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.
 Samsung HVAC maintains a policy of ongoing development, specifications are subject to change without notice.

		Motion Detection Sensor (MDS) ⁴	MCR-SMD

¹MIM-A00UN sub-PCB is required when connecting to WindFree™* 2.0 and Quantum 2.0 units

²Included with WindFree™* 2.0 and Quantum 2.0 units. Optional for WindFree™* Mini 4-Way Cassette and Console units connected to a FJM or FJM Max Heat® outdoor unit. Not compatible with Slim Duct units.

³MIM-H04UN is only required for remote control of cassette, console, and duct indoor units connected to a FJM or FJM Max Heat® outdoor unit. Only one per system is required.

⁴Compatible with WindFree™* Mini 4-Way Cassette only

*The WindFree™ unit delivers an air current that is under 0.15 m/s while in WindFree™ mode. Air velocity that is below 0.15 m/s is considered "still air" as defined by ASHRAE 55-2013 (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

Samsung HVAC maintains a policy of ongoing development, specifications are subject to change without notice.

Controls

Samsung offers a wide range of control solutions to meet the needs of almost any project.

Wireless Remote Controller

- ON/OFF
- Temperature setting
- Operation mode
- Fan speed
- Filter reminder setting
- Single event timer setting
- WindFree™ mode

Touchscreen Wired Controller

- ON/OFF
- Temperature setting
- Fan speed
- Touchscreen
- LCD backlit screen
- Built-in room temperature sensor
- Louver position setting
- IR receiver
- WindFree™ mode

Advanced Wired Controller

- ON/OFF
- Color screen
- Dual set-point**
- Built-in room temperature sensor
- 7-day programmable scheduling
- Occupied/unoccupied and setback settings
- IR receiver
- Louver position setting
- WindFree™ mode
- Motion Detection Sensor (MDS) indirect/direct airflow control

Wi-Fi Adapter

- Remote access with mobile device
- Adjust temperature, settings, and receive real-time updates about performance and energy usage
- One wi-fi adapter can control all indoor units connected to a FJM system

Thermostat Adapter

- Power On/Off
- Mode: Heat, Cool, Fan (auto, low, medium, high)
- Supports 1 or 2 stages cooling inputs, 1 or 2 stages heating inputs

Motion Detection Sensor (MDS)

- Learns occupancy patterns to reduce run time between occupied and unoccupied times
- Automatically turns off or changes set temperature based on room occupancy

External Contact Control Interface Module

- Provides On/Off control, error status output, operation output, and/or supplemental external hest control

Additional parts may be required. Please refer to technical documents for all control options, features, and specifications.
